GENERAL INFORMATION

CONCEPTION COLLEGE is a boarding school with High School and Collegiate departments, for CATHOLIC BOYS ONLY. It was founded September 3rd, 1883, by Rt. Rev. Frown Conrad, O. S. B., Abbot of Conception Monastery, and is conducted by the Benedictine Fathers. Since November 27, 1891, it is incorporated under the laws of the State of Missouri, and empowered to confer the usual academic degrees.

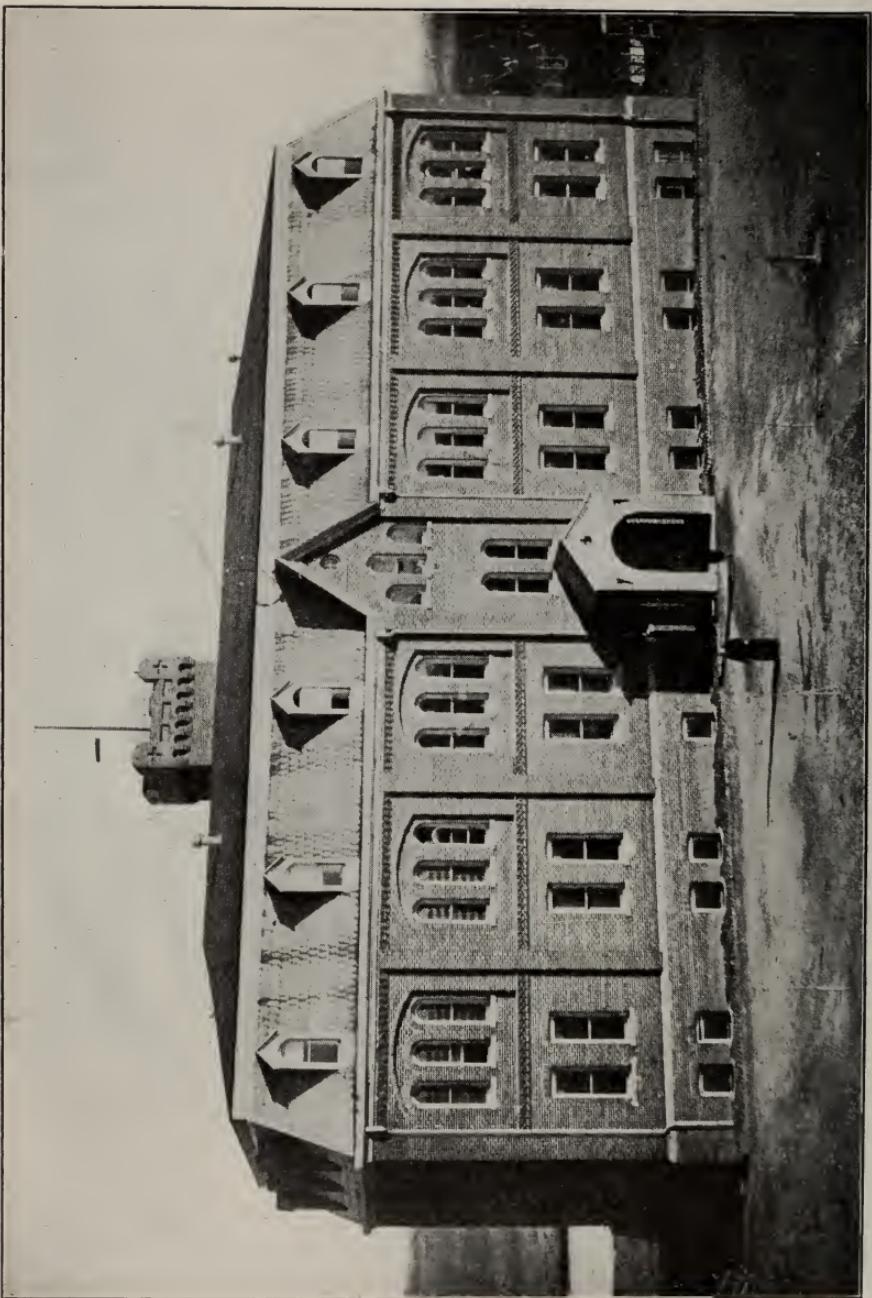

LOCATION—ACCESSIBILITY

Both Abbey and College are situated in the northwest part of the state, in Nodaway County. The elevated location, on a ridge of hills rising gently from the basin of the Little Platte River, ensures a choice climate for all the seasons of the year, and likewise affords excellent views of the beautiful surrounding country.

The nearest railway station is Conception, on the Chicago Great Western and the Wabash. All local and fast trains stop at Conception. The college has telephone connection with the railway station. Express is forwarded by the Wells-Fargo and the Pacific Express Companies from Conception, Mo. Visitors should engage a livery team at the railway station, two and a half miles from the college.

BUILDINGS

The college is built of brick, which are trimmed with sandstone. The rooms are commodious, heated with steam, and lighted with acetylene gas. Danger of loss of life by fire is removed by standpipe, hose and connection in each story, fire proof stairway and fire escape.

WEST VIEW

The spacious study hall, with its rows of oaken desks, the neatly furnished chapel and the airy bedroom are most admired by visitors. The basement contains large rooms for indoor recreation, a bath room, wash room, shoe room and toilet room. The dining room and kitchen are in an adjoining wing of the monastery. The music rooms and the society hall are also in separate buildings.

AIM OF CONCEPTION COLLEGE

Harmonious education, while providing sound mental and moral training, *must not endanger or stunt the growth of the body.* Now, a boarding school in the country is pre-eminently a place to assist the development of the body. The country air is bracy, stimulating, and has health-giving properties that are lacking in most city schools, whose playgrounds are usually small. There is also frequently a difficulty in practically occupying the leisure hours of a holiday, and many children who have a tendency to nervous diseases break down or remain weakly for life, for it takes a strong constitution to bear the physical and nervous strain of city school life in our days.

The first requisite is *eminently present in Conception College.* There is plenty of space and playgrounds for the use of students, and opportunity for cross-country excursions. The college is located on high ground so necessary for good drainage, and this elevated location also secures excellent ventilation. East of the college are the campus and swimming pool, with other commons and shady walks, large enough for all the students to play outdoor games at the same time. The sleeping room is so situated that it gets the rays of the sun from morning till evening; nor is there any obstruction to pure air, the second best of nature's disinfectants.

The hours for sleep, from 8:30 p. m. till 5:30 a. m., are all that can be claimed for necessary rest. Again, frequent and regular bathing is insisted on, during both winter and summer months. Drinking water from a well fifty feet

deep is protected against all contamination. The food is simple, but wholesome and plentiful, comprising a general diet with no fads. Good bread and butter, pure milk, eggs, meat and fresh vegetables are all supplied from *our own farm*, which is worked by the most conscientious hands, our lay brothers. A member of the faculty is entrusted with the direction of athletics, and care is taken that neither the health of the students nor their studies suffer any detriment. Finally; there is an experienced physician in the college, whose duty it is to look after the hygiene of the school and the health of the pupils.

The religious and moral spirit of our college may be determined not only from such principles of revelation, "The lips of the priest shall keep knowledge," "You are the light of the world," "Ambassadors of Christ," but also from the avowed purpose of the foundation of the college, viz: "The fathers charged with this office (of education) should consider the religious instruction and the practice of virtue among their pupils of equal importance with the instruction in sciences." (Constitution, Decl. to Chap. 30.) In accordance with this regulation the religious life of our students is carefully fostered not only by thorough instruction in the Catholic religion, but also by regular devotions in the chapel, attendance at the daily high mass in the abbey church, frequent reception of the holy sacraments, the sodality of the Bl. Virgin Mary, and by acquainting them with the sacred ceremonies of the altar and the solemn melodies of Plain Chant. These and other factors bearing on our students, we hope to be able to send out men deserving the name "vir" by forming characters that may be depended upon in all the vicissitudes of life, because by frequent practice they have acquired the fundamental lessons of Christianity: love of God and their fellowmen, justice, self-denial and truth.

It would be a great mistake, however, to think that the moral and the religious training of our students is the one exclusively attended to. The *classical course of studies*, requiring in our college *eight years for its com-*

*p*letion, is the best refutation for such an assumption. However, a large percentage of the students of our days takes only a few years' course and afterwards learn a trade. Now, while it is a praiseworthy undertaking for parents to try to protect the faith and good morals of their sons and give them an opportunity for acquiring useful knowledge, our college is not intended for boys who seem to have no calling for higher education. Yet this is what Catholics in America must have in order to take the lead in professional life.

Finally, only *a limited number of students* is admitted every year to safeguard the main purpose of our holy order and to insure excellent discipline among the students of our college.

GENERAL REGULATIONS.

The scholastic year consists of two sessions. The first begins during the first week of September and ends the last day of January. The second begins on the first day of February and ends about the 20th of June. Public examinations are held at the end of either session and written tests before the Easter holidays; after each examination reports of the student's conduct and progress are sent to his parents or guardians. The school year begins with a solemn high mass to invoke the blessing of God, and ends with another in thanksgiving for the favors received during the scholastic year.

Experience teaches that those students who are present at the beginning of the year show the most uniform and most satisfactory progress. It is therefore the earnest wish of the faculty that parents send their sons for the first day of the school year, and let them remain to the end. Pupils arriving after the opening of the school, or absent on account of sickness, will not receive private instruction or special attention from their respective teachers. Every new applicant is subjected to an examination and afterwards assigned to the class for which his proficiency qualifies him. Students coming from other

DINING HALL

institutions must present certificates testifying to their good moral character and their last class report. *All others must inclose with their application a letter of introduction from their parish priest, without which no application will receive any attention.* Nor do we take students for a shorter period than a session of five months. Furthermore, to insure uniformity of textbooks, students should buy them from our stationer or from senior students.

During Christmas holidays, those students who can conveniently visit home may do so, but must return promptly for resumption of classes. Willful disregard of this regulation debars pupils from competing for college medals or class awards. During Easter holidays classes are suspended, but no student is permitted to absent himself for visits. During *summer vacation, no students are kept at the college, nor admitted before date of opening.*

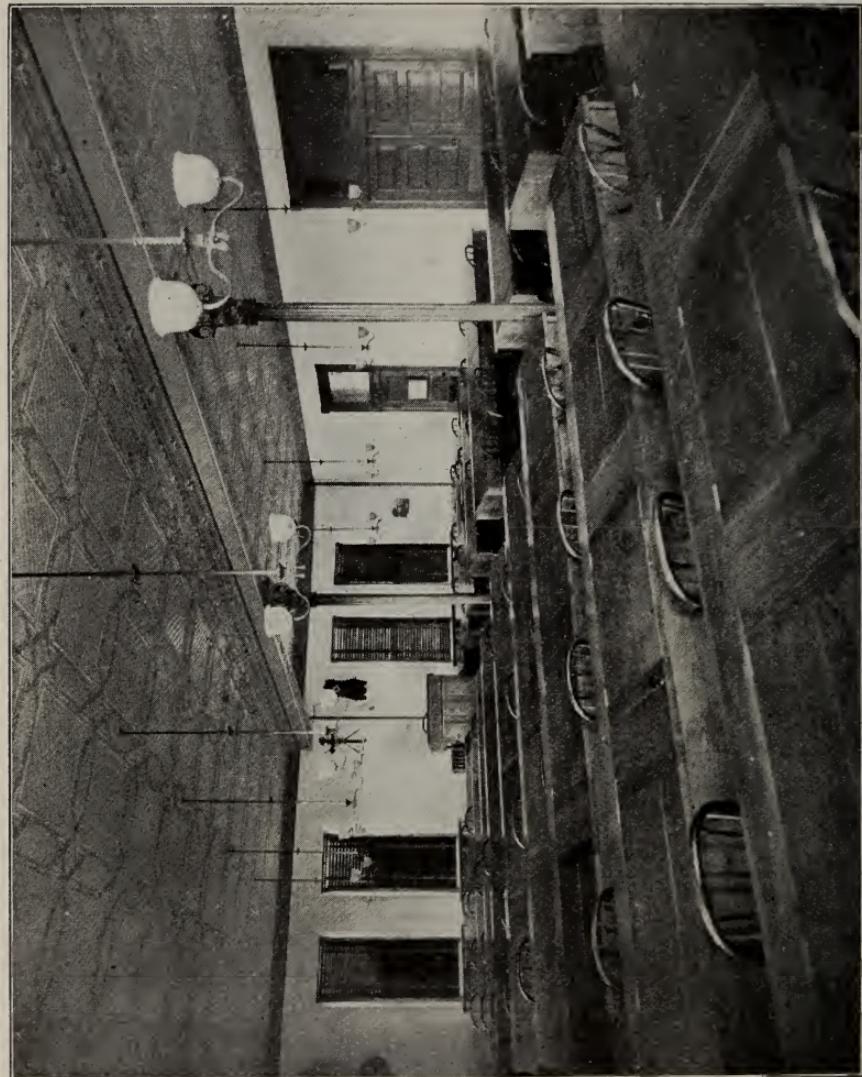

At the beginning of Lent a retreat of three days is conducted for the students' spiritual advancement.

Every student must be provided with at least two suits of clothes, a sufficient number of socks or stockings, shirts, nightshirts, summer and winter underwear, collars, neckties, handkerchiefs, towels, napkins, shoes, brushes, combs and other toilet articles. For service in church every student must wear a black cassock which the individual student has to buy. *All laundry goods must have been plainly marked with the owner's name in full.*

MORAL TRAINING

Students should at all times be obedient and respectful to the officers and professors of the college, and also observe habitual politeness toward one another. They must be where duty demands their presence, viz.: during the study or recitation hours, in the study hall or the class rooms; during recess or recreation hours in the recreation rooms or on the playgrounds.

Strict silence is to be observed at all times in the bed room, toilet room, and on the way to or from any daily

STUDY HALL

exercise; during study and recitation hours in the study hall, class rooms and the corridors. The same spirit of silence should banish from the college noisy plays, all running, shouting or whistling. The college authorities always demand of students scrupulous cleanliness in all apartments and premises; they therefore insist on depositing waste paper or other debris in the waste baskets. For any damage done to college property the respective student is held responsible, and the culprit himself is always expected to inform the authorities of the damage before being called to account by them.

Students are forbidden to retain money in their possession. Spending money must be deposited with Fr. Prefect on the day of admission. The weekly allowance depends on the direction of the parents. Students are also forbidden to lend, borrow, exchange or sell personal effects. Whenever a student becomes aware of the loss of any article, he should at once notify Fr. Prefect; late information may be useless.

Articles of clothing must be kept in the clothes room; they will be tolerated in the bed room only on days when wash is sent away or returned. The students have access to a select library, including various magazines and newspapers. Parents are, therefore, requested to send their sons no newspapers; clippings, however, containing local items of special interest, may be inclosed in letters. Books, periodicals, pamphlets, etc., against sound morals, are not only confiscated, but subject the possessor or owner to punishment.

Except for urgent reasons, approved by Fr. Prefect, letters should be written on the weekly half-holidays or on Sundays only. All mail and express matter of the students is subject to inspection. Students failing to comply with this rule may be dismissed. Correspondence with students who have been dismissed or have left the institution in bad standing is positively prohibited.

BED ROOM

Strict obedience, assiduous application to studies and blameless conduct are required from all students. Any serious transgression of these rules render the offender subject to effective correction, and even to dismissal, if this is considered necessary. Accordingly, students who are convicted of exerting a bad influence, those who habitually disregard the rules of the college, excite and promote a spirit of discontent and insubordination, or are incorrigibly idle are liable to dismissal. Students who are found to be rude, vulgar, or immodest in their conversation or habits, and despite repeated admonition manifest no improvement, will be forthwith dismissed without certificate of conduct.

The use of tobacco in whatever form is forbidden. But when a habit of smoking has been contracted, in order to prevent greater evils we grant permission to smoke at certain specified times and under proper restrictions to *students who have completed their sixteenth year of age and can furnish in writing, the consent of their parents or guardians.* Smoking of cigarettes and chewing of tobacco is always prohibited. The use or introduction of intoxicants is forbidden under pain of expulsion. Firearms are likewise prohibited.

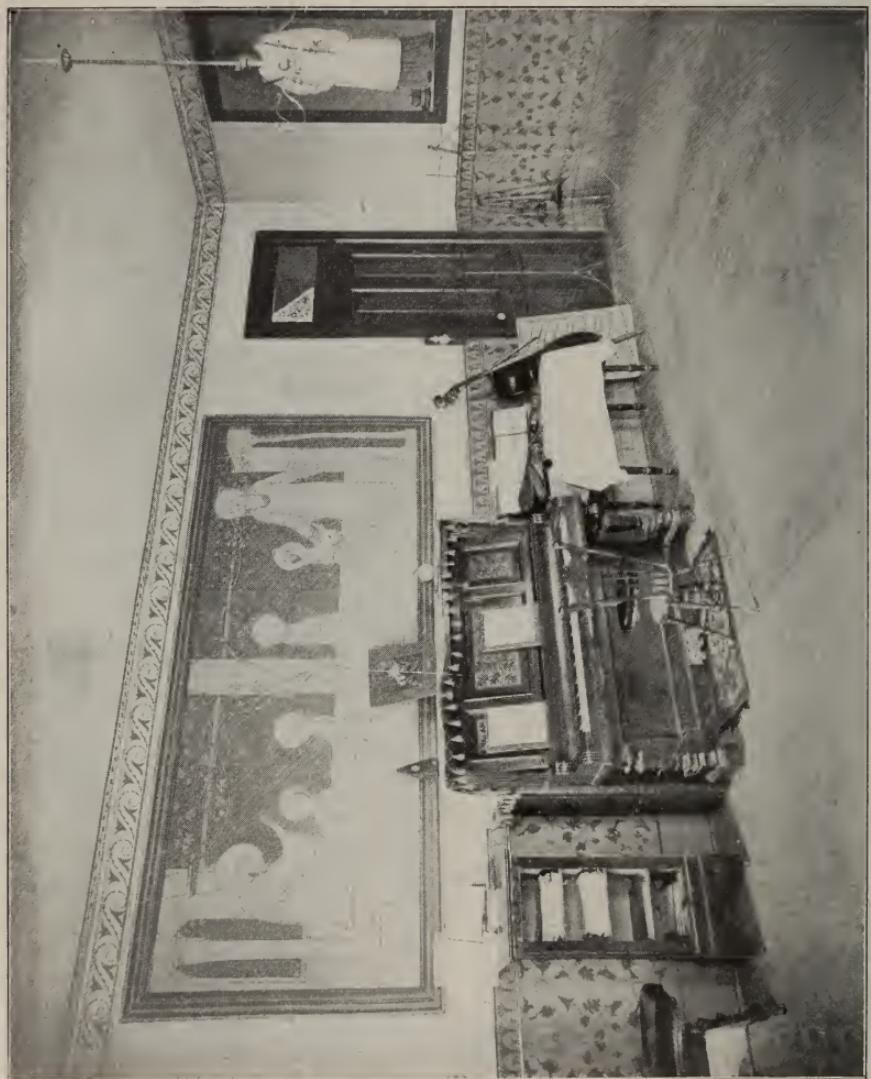

Eatables may be sent to students for Thanksgiving, during the Christmas and Easter holidays, but in moderate quantities. At other times they may be distributed to well deserving students.

During visits of parents or relatives students are not excused from recitation or study hours and other common exercises. We therefore, urgently request that such visits be restricted to holidays; likewise, that parents, at no time of the school year, seek leave of absence for their sons, except for the most urgent reasons.

The students go to confession and receive holy communion in a body once a month.

RULES FOR DAY SCHOLARS

Day scholars must be at the college at 8:00 a. m. for high mass and at 1:00 p. m. for studies. In case of absence

MUSIC HALL

or tardiness they must furnish in writing an excuse signed by their parents or guardians. Frequent absence or tardiness, except for illness, as well as neglect to prepare lessons or exercises, is considered a sufficient cause for dismissal.

Two or three hours of study being required daily for the proper preparation of their lessons, parents are requested to insist on their sons faithfully performing this duty. If they fail to insist on study at home and regular attendance, progress is impossible.

Day scholars who serve as messengers or introduce articles not permitted to boarders, or in any other way assist them in violating the rules of the college, will be dismissed on being twice convicted of the offense. The same applies to students who are guilty of disorderly conduct outside of the college premises.

Without permission they should not bring visitors to the college or the grounds.

Nov. 24, 1910—Thanksgiving Day—Holiday.

Feb. 2, 1911—Midterm—Holiday.

Feb. 22, 1911—Washington's Birthday—Holiday.

May May Day—Holiday.

On these days and on the high feast days of the church classes are suspended.

MARKS, PRIZES, PROMOTIONS, DIPLOMAS AND DEGREES

MARKS

The student's proficiency and rank are determined according to the following scale.

Very Good.....	90—100
Good.....	80— 90
Satisfactory.....	70— 80
Deficient.....	64— 70
Unsatisfactory.....	Below 64

PRIZES

Prizes are awarded at the closing exercises to deserving students who are present. No prizes are given for marks

below 90; honorable mention, however, is made of students whose mark is from 85—90. Students coming after the formal opening of school or failing to secure a "Satisfactory" in Application or in any obligatory branch are excluded from competition for class honors.

PROMOTION.

The Note "Satisfactory" in all primary branches is required for promotion.

Christian Doctrine, English, Latin, Greek, and Mathematics are considered the primary studies.

Three factors decide the promotion of students: the pupil's record in school, the result of his written examination and his standing in the oral test. The passing mark in all three is "Satisfactory." High standing in some subjects, however, may atone for slight deficiencies in others; but no pupil will be passed who is deficient in English or both the classical languages. "Deficient" in one of the classical languages may be offset by a standing of at least "Good" in the other ancient language, in English or Mathematics. In the same way, "Deficient" in Mathematics, requires at least "Good" in English, Latin or Greek. The Note "Deficient" in two primary branches requires an examination in either study before a student will be promoted. The Note "Unsatisfactory" in any primary branch prevents the student's promotion absolutely. Students leaving before the end of the school year can not enter a higher class, until they have passed a satisfactory examination at the beginning of the next school year.

DIPLOMAS.

A diploma is awarded to students of the second collegiate class whose average note in all obligatory branches is not less than seventy-five per cent, English and Latin, however, averaging eighty.

DEGREES.

The degree of Bachelor of Arts is conferred on students who successfully pass the examinations in the course

as outlined in this catalogue with an 80 per cent in the collective branches.

If they are afterwards graduated in any learned profession, they may receive the degree of Master of Arts on application to the president of the college.

Payment is to be made in advance. A reduction of *ten per cent* is granted to those who pay the entire sum for board and tuition in advance, or who have two sons attending college at the same time; a reduction of *five per cent* is granted to those who pay for a session of five months in advance. If payment in advance is impossible, arrangement must be

made for regular monthly payments. No allowance will be made nor money refunded for partial absence or withdrawal before end of the month, except on account of protracted sickness or dismissal. No money is advanced by the college for clothes or other incidentals; therefore a sufficient sum must be deposited with the treasurer. Books, stationery, toilet articles, etc., may be bought at the college, at current prices. No books are returnable.

All remittances are to be made payable to "*Conception College, Conception, Mo.*" For checks on country banks add extra fee for collection.

Parents who wish to withdraw their sons before the end of the session, must give timely notice, pay all accounts, and forward the necessary traveling money. All bills must be paid before students leave, whether they leave during or at the end of the session.

Letters of inquiry should be addressed to

THE REV. RECTOR,

Conception College,

Conception, Missouri.

COURSE OF STUDIES

THE CLASSICAL COURSE, the one pursued in our college, consists of two departments, viz: the Academic or High School, and the Collegiate. Either is completed in four years, and comprises the Latin, Greek, English and German languages and their literature, the Doctrines and Evidences of Religion, Mental and Moral Philosophy, Astronomy, Physics, Chemistry, Mathematics, Rhetoric, Composition, Elocution, History, Geography and Arithmetic. This course alone gives a thorough scientific and literary education, and thus opens the way to the subsequent successful study of Theology, Law, or Medicine. The Academic department prepares students for the successful pursuance of a commercial career.

The course adopted by the college is not elective but obligatory for all students. In rare cases only may a student be excused from any branch. Optional studies are drawing, painting, bookkeeping, shorthand, typewriting and instrumental music. Optional studies may be pursued, provided the respective students have passing grades in all obligatory branches.

The preparatory class is maintained for such pupils as are not sufficiently advanced to enter the High School department, but may be prepared for it within the space of one year. Applicants for this class must have completed the seventh grade of a parochial or public school. *Others, not so far advanced, need not apply,* as we do not maintain a minims' department.

SOCIETIES

RELIGIOUS

THE SODALITY OF THE BLESSED VIRGIN

was organized in 1887. Its aim is to foster in the members a very special devotion to the ever Bl. Mother of our Lord, and with her aid to help sodalists to lead a fervent Catholic life and die a happy death.

The means employed for this end are: Weekly recitation of the office of the Immaculate Conception, frequent reception of the holy sacraments, special instructions and exhortations, the exercise of works of piety, mercy and zeal among their fellow students, and finally a high standard of good conduct.

Students who have been received into the sodality in other colleges and wish to be admitted as active members into our sodality, must present a testimonial of their reception; the officers will then decide on the affiliation of the applicant.

SCHOLARSHIPS

The funds donated by generous benefactors enable the faculty to offer four scholarships to the successful competitors. The student obtaining such scholarship gets board and tuition free of charge, but must defray all other incidental expenses.

Conditions for obtaining scholarship:

1. The competitor must have completed the first academic class with honors.
2. The applicant, after passing the required examinations, must present his petition in writing to the Rt. Rev. President of the College.
3. The holder of a scholarship must never show himself unworthy of the privilege by bad conduct or want of application to studies.

DONATIONS

The faculty expresses its sincere thanks to benefactors for the following donations received during the school year 1909-1910:

Hon. Charles F. Booher, 16 Volumes Congressional Record, Messages and Documents, Memorial Addresses and Reports of Commissioner of Education. Map, Routes of Primitive Explorers.

GENERAL INFORMATION

CONCEPTION COLLEGE is a boarding school with High School and Collegiate departments, for CATHOLIC BOYS ONLY. It was founded September 3rd, 1883, by Rt. Rev. Frowin Conrad, O. S. B., Abbot of Conception Monastery, and is conducted by the Benedictine Fathers. Since November 27, 1891, it is incorporated under the laws of the state of Missouri, and empowered to confer the usual academic degrees.

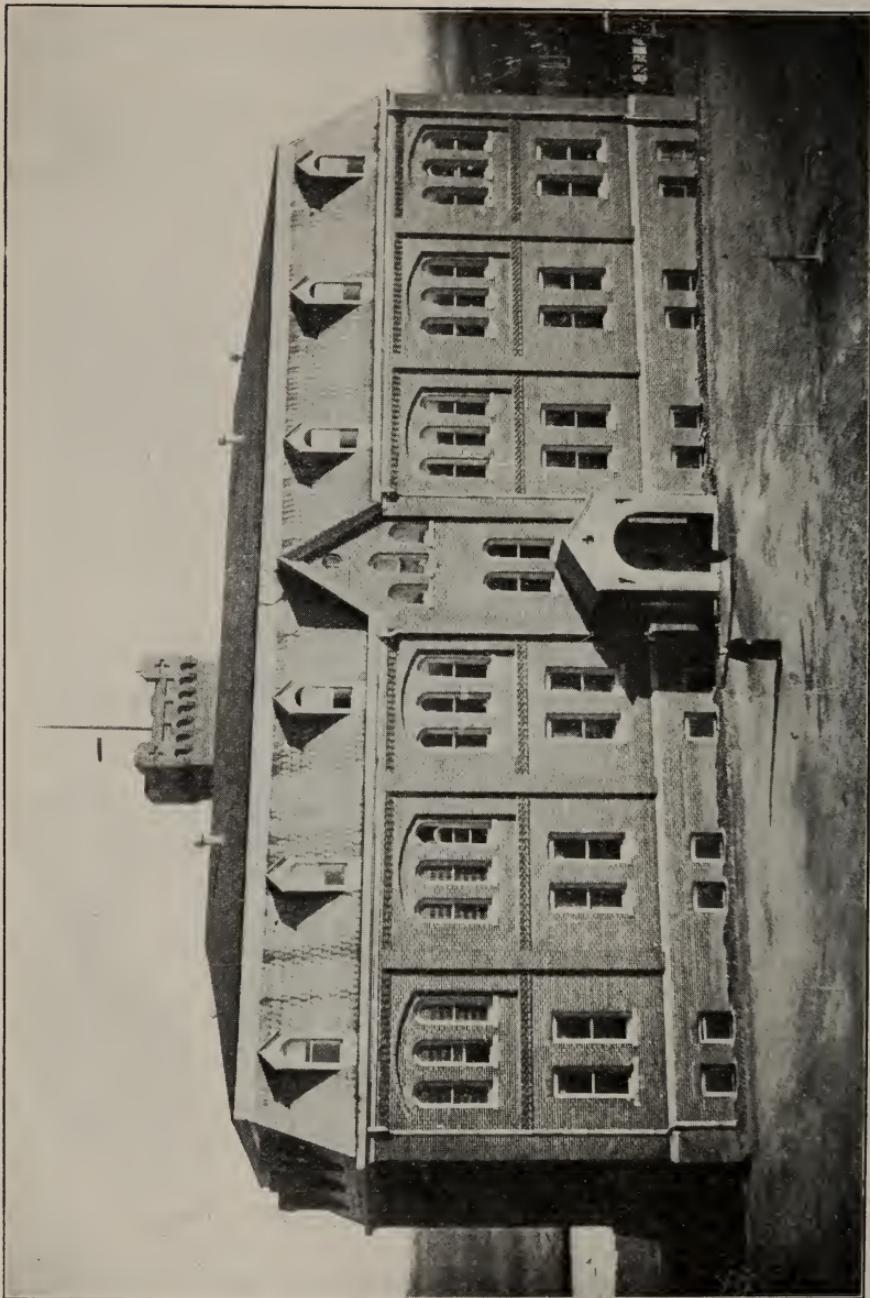

LOCATION—ACCESSIBILITY

Both Abbey and College are situated in the northwest part of the state, in Nodaway County. The elevated location, on a ridge of hills rising gently from the basin of the Little Platte River, ensures a choice climate for all the seasons of the year, and likewise affords excellent views of the beautiful surrounding country.

The nearest railway station is Conception, on the Chicago Great Western and the Wabash. All local and fast trains stop at Conception. The college has telephone connection with the railway station. Express is forwarded by the Wells-Fargo and the Pacific Express Companies from Conception, Mo. Visitors should engage a livery team at the railway station, two and a half miles from the college.

BUILDINGS

The college is built of brick, trimmed with sandstone. The rooms are commodious, heated by steam, and lighted with acetylene gas. Danger of loss of life from fire is removed by standpipe, hose and connection in each story, fire proof stairway and fire escape.

WEST VIEW

The spacious study hall, with its rows of oaken desks, the neatly furnished chapel and the airy bedroom are admired by all visitors. The basement contains large rooms for indoor recreation, a bath room, wash room, shoe room and toilet room. The dining room and kitchen are in a wing of the adjacent monastery. The music rooms and the society hall are also in separate buildings.

AIM OF CONCEPTION COLLEGE

Harmonious education, while providing sound mental and moral training, *must not endanger or stunt the growth of the body*. Now, a boarding school in the country is pre-eminently a place to assist the development of the body. The country air is bracy, stimulating, and has health-giving properties that are lacking in most city schools, whose playgrounds are usually small. There is also frequently a difficulty in practically occupying the leisure hours of a holiday, and many children who have a tendency to nervous diseases break down or remain weakly for life, as it takes a strong constitution to bear the physical and nervous strain of city school life in our days.

The first requisite is *eminently present in Conception College*. There is plenty of space and playgrounds for the use of students, and opportunity for cross-country excursions. The college is located on high ground so necessary for good drainage, and this elevated location also secures excellent ventilation. East of the college are the campus and swimming pool, with other commons and shady walks, large enough for all the students to play outdoor games at the same time. The sleeping room is so situated that it gets the rays of the sun from morning till evening; nor is there any obstruction to pure air, the second best of nature's disinfectants.

The hours for sleep, from 8:30 p. m. till 5:30 a. m., are all that can be claimed for necessary rest. Again, frequent and regular bathing is insisted on, during both winter and summer months. Drinking water from a well fifty feet

deep is protected against all contamination. The food is simple, but wholesome and plentiful, comprising a general diet with no fads. Good bread and butter, pure milk, eggs, meat and fresh vegetables are all supplied from *our own farm*, which is worked by the most conscientious hands, our lay brothers. A member of the faculty is entrusted with the direction of athletics, and care is taken that neither the health of the students nor their studies suffer any detriment. Finally, there is an experienced physician in the college, whose duty it is to look after the hygiene of the school and the health of the pupils.

The religious and moral spirit of our college may be determined not only from such principles of revelation, "The lips of the priest shall keep knowledge," "You are the light of the world," "Ambassadors of Christ," but also from the avowed purpose of the foundation of the college, viz: "The fathers charged with this office (of education) should consider the religious instruction and the practice of virtue among their pupils of equal importance with the instruction in sciences." (Constitution, Decl. to Chap. 30.) In accordance with this regulation the religious life of our students is carefully fostered not only by thorough instruction in the Catholic religion, but also by regular devotions in the chapel, attendance at the daily high mass in the abbey church, frequent reception of the holy sacraments, the sodality of the Bl. Virgin Mary, and acquaintance with the sacred ceremonies of the altar and the solemn melodies of Plain Chant. These and other factors bearing on our students, we hope to be able to send out men deserving the name "vir," possessing a character that may be depended upon in all the vicissitudes of life, because by frequent practice they have acquired the fundamental lessons of Christianity: love of God and their fellowmen, justice, self-denial and truth.

It would be a great mistake, however, to think that the moral and the religious training of our students is the one exclusively attended to. The *classical course of studies*, requiring in our college *eight years for its com-*

bletion, is the best refutation for such an assumption. However, a large percentage of the students of our days takes only a few years' course and afterwards learns a trade. Now, while it is a praiseworthy undertaking for parents to try to protect the faith and good morals of their sons and give them an opportunity for acquiring useful knowledge, our college is intended only for boys who have a calling for higher education. And this is what Catholics in America must have in order to take the lead in professional life.

Finally, but *a limited number of students* is admitted every year to safeguard the main purpose of our holy order and to insure excellent discipline among the students of our college.

GENERAL REGULATIONS

The scholastic year consists of two sessions. The first begins during the first week of September and ends the last day of January. The second begins on the first day of February and ends about the 20th of June. Public examinations are held at the end of either session and written tests before the Easter holidays; after each examination reports of the student's conduct and progress are sent to his parents or guardians. The school year begins with the solemn high mass to invoke the blessing of God, and ends with another in thanksgiving for the favors received during the scholastic year.

Experience teaches that those students who are present at the beginning of the year show the most uniform and most satisfactory progress. It is therefore the earnest wish of the faculty that the parents send their sons for the first day of the school year, and let them remain to its end. Pupils arriving after opening of the school, or absent on account of sickness, will not receive private instruction or special attention from their respective teachers. Every new applicant is subjected to an examination and afterwards assigned to the class for which his proficiency qualifies him. Students coming from other

DINING HALL

institutions must present certificates testifying to their good moral character and their last class report. *All others must enclose with their application a letter of introduction from their parish priest, without which no application will receive any attention.* Nor do we take students for a shorter period than a session of five months. Furthermore, to insure uniformity of textbooks, students should buy them from our stationer or from senior students.

During Christmas holidays, those students who can conveniently visit home may do so, but must return promptly for resumption of classes. Willful disregard of this regulation debars pupils from competing for college medals or class awards. During Easter holidays classes are suspended, but no student is permitted to absent himself for visits. During *summer vacation, no students are kept at the college, or admitted before date of opening.*

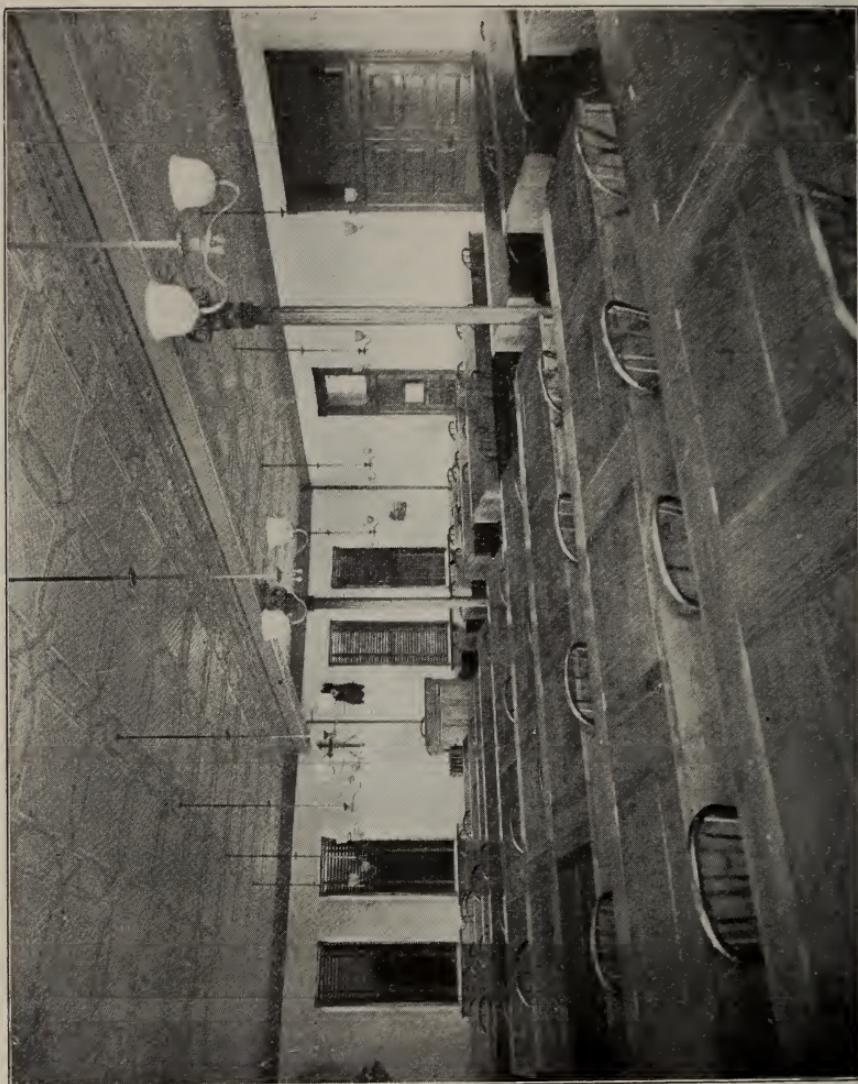

At the beginning of Lent a retreat of three days is conducted for the students' spiritual advancement.

Every student must be provided with at least two suits of clothes, a sufficient number of socks or stockings, shirts, nightshirts, summer and winter underwear, collars, neckties, handkerchiefs, towels, napkins, shoes, brushes, combs and other toilet articles. For service in church every student must wear a black cassock which he must provide at his own expense. *All laundry goods must have been plainly marked with the owner's name in full.*

MORAL TRAINING

Students should at all times be obedient and respectful to the officers and professors of the college, and also observe habitual politeness toward one another. They must be where duty demands their presence, viz.: during the study or recitation hours, in the study hall or the class rooms; during recess or recreation hours in the recreation rooms or on the playgrounds.

Strict silence is to be observed at all times in the bed room, toilet room, and on the way to or from any daily

[STUDY HALL

exercise; during study and recitation hours in the study hall, class rooms and the corridors. The same spirit of silence should banish from the college noisy plays, all running, shouting or whistling. The college authorities always demand of students scrupulous cleanliness in all apartments and premises; they therefore insist on depositing waste paper or other debris in the waste baskets. For any damage done to college property the respective student is held responsible, and he is always expected to inform the authorities of the damage before being called to account by them.

Students are forbidden to retain money in their possession. Spending money must be deposited with Fr. Prefect on the day of admission. The weekly allowance depends on the direction of the parents. Students are also forbidden to lend, borrow, exchange or sell personal effects. Whenever a student becomes aware of the loss of any article, he should at once notify Fr. Prefect; late information may be useless.

Articles of clothing must be kept in the clothes room; they will be tolerated in the bed room only on days when wash is sent away or returned. The students have access to a select library, including various magazines and newspapers. Parents are, therefore, requested to send their sons no newspapers; clippings, however, containing local items of special interest, may be inclosed in letters. Books, periodicals, pamphlets, etc., against sound morals, are not only confiscated, but subject the possessor and owner to punishment.

Except for urgent reasons, approved by Fr. Prefect, letters should be written only on the weekly half-holidays or on Sundays. All mail and express matter of the students is subject to inspection. Students failing to comply with this rule may be dismissed. Correspondence with students who have been dismissed or have left the institution in bad standing is positively prohibited.

Strict obedience, assiduous application to studies and blameless conduct are required from all students. Any serious

BED ROOM

transgression of these rules render the offender subject to effective correction, and even to dismissal, if this is considered necessary. Accordingly, students who are convicted of exerting a bad influence, those who habitually disregard the rules of the college, excite and promote a spirit of discontent and insubordination, or are incorrigibly idle are liable to dismissal. Students who are found to be rude, vulgar, or immodest in their conversation or habits, and despite repeated admonition manifest no improvement, will be forthwith dismissed without certificate of conduct. The students are separated into two divisions, senior and junior. Familiarity between older and younger students will not be tolerated.

The use of tobacco in whatever form is forbidden. But when a habit of smoking has been contracted, in order to prevent greater evils we grant permission to smoke at certain specified times and under proper restrictions to *students who have completed their sixteenth year of age and can furnish in writing, the consent of their parents or guardians.* Smoking of cigarettes and chewing of tobacco is always prohibited. The use or introduction of intoxicants is forbidden under pain of expulsion. Firearms are likewise prohibited.

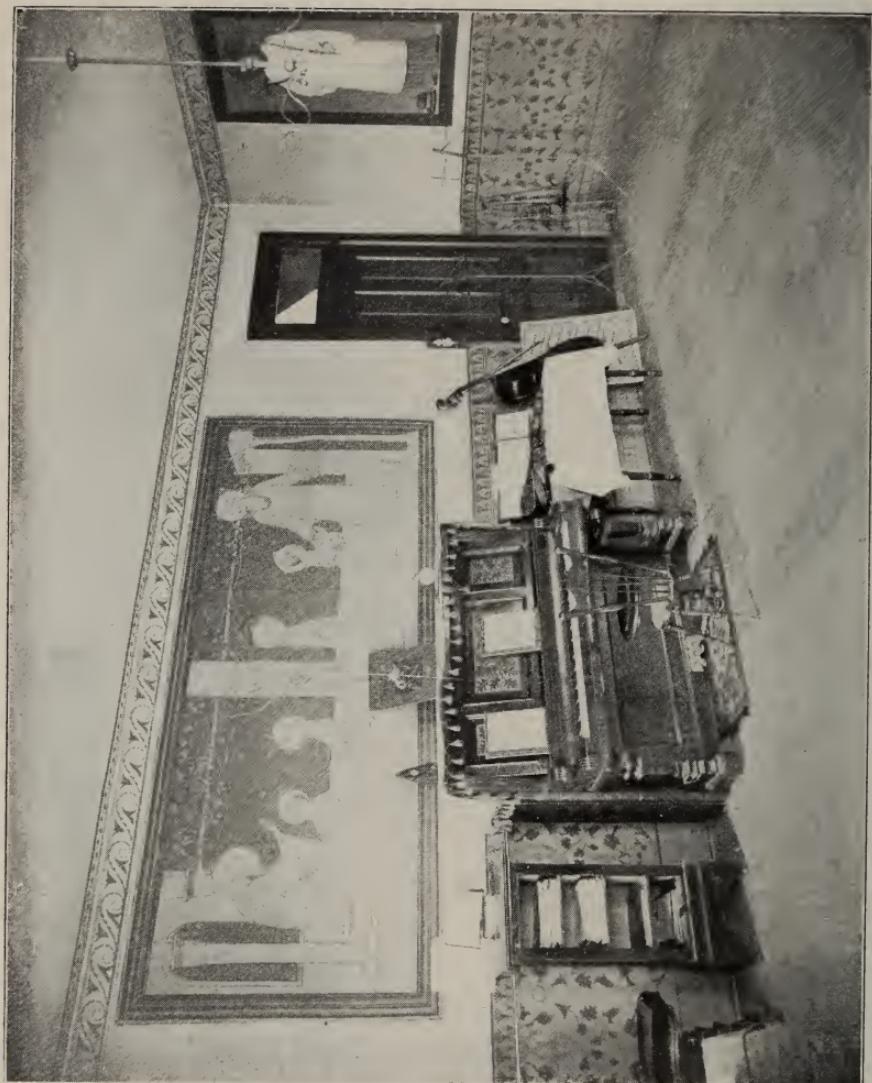

Eatables may be sent to students for Thanksgiving, during the Christmas and Easter holidays, but in moderate quantities. If sent at other times, they may be distributed to well deserving students.

During visits of parents or relatives students are not excused from recitation or study hours and other common exercises. We, therefore, urgently request that such visits be restricted to holidays; likewise, that parents, at no time of the school year, seek leave of absence for their sons, except for most urgent reasons.

The students are encouraged to receive daily communion.

RULES FOR DAY SCHOLARS

Day scholars must be at the college at 8.00 a. m. for high mass and at 1:00 p. m. for studies. In case of absence

MUSIC HALL

or tardiness they must furnish in writing an excuse signed by their parents or guardians. Frequent absence or tardiness, except for illness, as well as neglect to prepare lessons or exercises, is considered a sufficient cause for dismissal.

Two or three hours of study being required daily for the proper preparation of their lessons, parents are requested to insist on their sons faithfully performing this duty. If they fail to insist on study at home and regular attendance, progress is impossible.

Day scholars who serve as messengers or introduce articles not permitted to boarders, or in any other way assist them in violating the rules of the college, will be dismissed on being twice convicted of the offense. The same applies to students who are guilty of disorderly conduct outside of the college premises.

Without permission they should not bring visitors to the college or the grounds.

MARKS, PRIZES, PROMOTIONS, DIPLOMAS AND DEGREES

MARKS

The student's proficiency and rank are determined according to the following scale.

Very Good	90—100
Good.....	80— 90
Satisfactory.....	70— 80
Deficient	64— 70
Unsatisfactory.....	Below 64

PRIZES

Prizes are awarded at the closing exercises to deserving students who are present. No prizes are given for marks

below 90; honorable mention, however, is made of students whose mark is from 85—90. Students coming after the formal opening of the school or failing to secure a "Good" in Conduct or Application, or those who do not take all branches of study are excluded from competition for prizes.

PROMOTION

The Note "Satisfactory" in all primary branches is required for promotion.

Christian Doctrine, English, Latin, Greek, and Mathematics are considered the primary studies.

Three factors decide the promotion of students: the pupil's record in school, the result of his written examination and his standing in the oral test. The passing mark in all three is "Satisfactory." High standing in some subjects, however, may atone for slight deficiencies in others; but no pupil will be passed who is deficient in English or both the classical languages. "Deficient" in one of the classical languages may be offset by a standing of at least "Good" in the other ancient language, in English or Mathematics. In the same way, "Deficient" in Mathematics, requires at least "Good" in English, Latin or Greek. The Note "Deficient" in two primary branches makes an examination necessary in either study, before a student will be promoted. The Note "Unsatisfactory" in any primary branch prevents the student's promotion absolutely. Students leaving before the end of the school year can not enter a higher class, until they have passed a satisfactory examination at the beginning of the next school year. A fee of \$5.00 is charged in September for examinations which any student neglected to pass in June.

DIPLOMAS

A diploma is awarded to students of the second collegiate class whose average note in all obligatory branches is not less than seventy-five per cent, English and Latin, however, averaging eighty.

DEGREES

The degree of Bachelor of Arts is conferred on students who successfully pass the examinations in the course

as outlined in this catalogue with an 80 per cent in the collective branches.

If they are afterwards graduated in any learned profession, they may receive the degree of Master of Arts on application to the president of the college.

Payment is to be made in advance every month. A reduction of *ten per cent* is granted to those who pay *the entire sum* for board and tuition in advance, or who have two sons attending college at the same time; a reduction of *five per cent* is granted to those who pay for *a session of five months in advance*. If payment in advance is impossible, arrangement

must be made for other regular payments. No allowance will be made nor money refunded for partial absence or withdrawal before end of the month, except on account of protracted sickness or dismissal. No money is advanced by the college for clothes or other incidentals; therefore a sufficient sum must be deposited with the treasurer. Books, stationery, toilet articles, etc., may be bought at the college, at current prices. No books are returnable.

All remittances are to be made payable to "*Conception College, Conception, Mo.*" For checks on country banks add extra fee for collection.

Parents who wish to withdraw their sons before the end of the session, must give timely notice, pay all accounts, and forward the necessary traveling money. All bills must be paid before a student departs, whether he leaves during or at the end of the session.

Letters of inquiry should be addressed to

THE REV. RECTOR,

Conception College,

Conception, Missouri.

COURSE OF STUDIES

THE CLASSICAL COURSE, the one pursued in our college, consists of two departments, viz: the Academic or High School, and the Collegiate. Either is completed in four years, and comprises the Latin, Greek, English and German languages and their literature, the Doctrines and Evidences of religion, Mental and Moral Philosophy, Astronomy, Physics, Chemistry, Mathematics, Rhetoric, Composition, Elocution, History, Geography and Arithmetic. This course alone gives a thorough scientific and literary education, and thus opens the way to the subsequent successful study of Theology, Law or Medicine. The Academic department prepares students for the successful pursuance of a commercial career.

The course adopted by the college is not elective but obligatory for all students. In rare cases only may a student be excused from any branch. Optional studies are drawing, painting, bookkeeping, shorthand, typewriting and instrumental music. Optional studies may be pursued, provided the respective student has passing grades in all obligatory branches.

The preparatory class is maintained for such pupils as are not sufficiently advanced to enter the High School department, but may be prepared for it within the space of one year. Applicants for this class must have completed the seventh grade of a parochial or public school. *Others, not so far advanced, can not be received,* as we do not maintain a minims' department.

REQUIREMENTS OF ADMISSION

The students applying for First Academic Class are supposed to be well grounded in Elementary English, Arithmetic, Geography and United States History.

I. ENGLISH.

1. English Grammar: The common use of capitals; parts of speech; declension and conjugation; sentence structure; classification of sentences.
2. Reading: One or more paragraphs, new to the applicant, are to be read at sight; distinct articulation, accurate and fluent pronunciation, understanding of the author's meaning, and oral reproduction of the passages read, will determine the applicant's admission.
3. Practical exercises, consisting in dictation or reproduction of easy selections from standard authors, letter-writing and common business forms.
4. Spelling.

II. ARITHMETIC.

The fundamental operations; multiples, measures and factors; fractions, common and decimal; denominate numbers and practical measurement; ratio and proportion, simple problems.

III. GEOGRAPHY.

The political divisions of the continents, their capitols, chief cities, form of government and population, their industry, especially of North America and the United States.

IV. HISTORY.

The principal events of the History of the United States.

THE OBLATES OF ST. BENEDICT

Cosimo de Medici, the great duke of Tuscany, when asked why he was accustomed to read the Holy Rule so persistently, replied that its sagacious regulations gave him the best guidance in promoting the welfare of his people. This fundamental suitableness of the Rule for Christians living in the world gave rise to the Oblates of St. Benedict.

Twenty years is the age prescribed for admission. A privilege of Pope Pius X. allows us to receive students of good character at the early age of fourteen. Accordingly twenty students were enrolled among the Oblates during the last school year, and fourteen are at present candidates preparing for the great honor of being numbered among the children of St. Benedict.

THE SODALITY OF THE BLESSED VIRGIN

was organized in 1887. Its aim is to foster in the members a very special devotion to the ever Bl. Mother of our Lord, and with her aid to help sodalists to lead a fervent Catholic life and die a happy death.

The means employed for this end are: Weekly recitation of the office of the Immaculate Conception, frequent reception of the holy sacraments, special instructions and exhortations, the exercise of works of piety, mercy and zeal among their fellow students, and finally a high standard of good conduct.

Students who have been received into the sodality in other colleges and wish to be admitted as active members into our sodality, must present a testimonial of their reception; the officers will then decide on the affiliation of the applicant.

SCHOLARSHIPS

The funds donated by generous benefactors enable the faculty to offer four scholarships to the successful

competitors. The student obtaining such scholarship gets board and tuition free of charge, but must defray all other incidental expenses.

Conditions for obtaining a scholarship:

1. The competitor must have completed the first academic class with honors.
2. The applicant, after passing the required examinations, must present his petition in writing to the Rt. Rev. President of the College.
3. The holder of a scholarship must never show himself unworthy of the privilege by bad conduct or want of application to studies.

DONATIONS

The faculty expresses its sincere thanks to benefactors for the following donations received during the school year 1910-1911:

Hon. W. J. Stone, Seven Volumes Congressional Record; Hon. C. F. Booher, Public Documents and Pamphlets; the College Athletic Association, Set of Baseball Uniform.
